AFFILIATIONS & MEMBERSHIPS

Australian institute of Refrigeration, Heating and Air Conditioning (AIRAH)

Geoff is the Operations Manager of Star 8 Australia with over 20 years of experience. Geoff started his career "on the tools" having worked across Australia and overseas. Geoff specialises in HVAC Controls having held a senior accounts manager position facilitating this discipline. Geoff has also worked heavily in Asset Management, fronting major projects in the Tertiary, Health and Educational Sector. As operations director, Geoff manages field based project delivery and is a hard task master with a high work ethic and eye for detail. Geoff believes in leaving clients fully satisfied and takes a high level of pride in his work.

Geoff's expertise include;

- Mechanical Installations
- Servicing and Maintenance
- Asset Management Data Collection
- Refrigeration System Trouble Shooting
- Building Management Systems and Control Automation
- Commissioning and Testing

INDUSTRY EXPERIENCE

Star 8 Australia (2016 -)

OPERATIONS MANAGER

Geoff heads up field based operations and project delivery. He is a non-apologetic hard task master believing in leaving clients satisfied with workmanship and project outcomes.

HIFLOW INDUSTRIES (2015 – 2015)

CLIENT SERVICES MANAGER

Geoff was responsible tier one major clients including names such as GPT, managing service engineers for project delivery and maintenance.

OPUS INTERNATIONAL (2012 – 2015)

Geoff held a senior construction engineer role within the Mechanical and Electrical division, travelling nationally to oversee major projects within the aged care, mining, educational, health, tertiary and aviation sector.

ASHBURNER FRANCIS (2009 – 2012)

Geoff managed the Maintenance and asset management division of a National consultancy practise working on multiple construction projects including 12 airport control towers and several universities.

AIRMASTER (2001 – 2009)

Geoff was the Lead Field Technician and then client key account manager for commissioning, servicing and repair of mechanical systems specialising in building management design and automation.

AE SMITH (1999 – 2001)

Geoff worked as a Field Technician for installation, servicing and repair of mechanical systems across Queensland for multiple industry sectors and scale.
